Profile

I am a passionate and dedicated MERN Stack web developer from Dhaka Bangladesh. With expertise in crafting dynamic, user-friendly, and efficient web applications, I specialize in utilizing the power of MongoDB, Express.js, React.js, and Node.js to deliver scalable solutions. My commitment to clean code, responsive design, and innovative problem-solving ensures that every project I undertake is both impactful and aligned with modern web development standards. Let's create something amazing together

My Achievements

1. Achieve 1st runner up in "Delta dev code storm" software development contest to build a mobile app called "Hello NUBian"
2. Awarded the first position for my "Android Controlled Surveillance Robot" IOT project in 2022 at my college
3. Successfully conducted my first ever seminar on "Concepts to set up career" at Institute of Science Trade & Technology, Dhaka
